About Specialists

In this enlightened "end of the century" the specialist is the man who succeeds. In all trades and professions the public look for thoroughness, and the man who masters one line of business is the man who "gets there."

We do not claim to be "kings," but we are specialists—we devote our whole attention to Foot Wear.

This fact enable us to do the best possible for our customers, and explains why we are doing the bulk of the trade.
